Sample Custodian Test Questions and Answers

Let's examine some example questions and answers that could appear on a custodian test:

Question 1: What is the proper procedure for cleaning a spill on a hard-surface floor?

Answer: First, assess the spill's nature (e.g., liquid, solid, hazardous material). Wear

appropriate safety gear (gloves, eye protection). If hazardous, follow specific protocols for that material. For non-hazardous spills, contain the spill to prevent spreading. Use absorbent material to soak up the spill. Then, clean and disinfect the area.

Question 2: What are the key safety precautions when operating a floor buffer?

Answer: Always unplug the buffer before performing any maintenance. Inspect the buffer for damage before each use. Ensure the area is clear of obstacles. Use appropriate safety gear (eye protection, hearing protection). Never leave the buffer unattended while operating.

Question 3: How would you respond to a fire alarm?

Answer: Immediately evacuate the building using the nearest designated exit. Do not use elevators. Once outside, proceed to the designated assembly point and inform the appropriate personnel.
